```
System.out.println("Hello World");
```

The Java Platform

Evolution of modern enterprise software.

CORE PHILOSOPHY

Why Java?

Platform Independent

Write once, run anywhere.

Robust & Secure

Strong automated memory management.

Object-Oriented

Modular and scalable architecture.

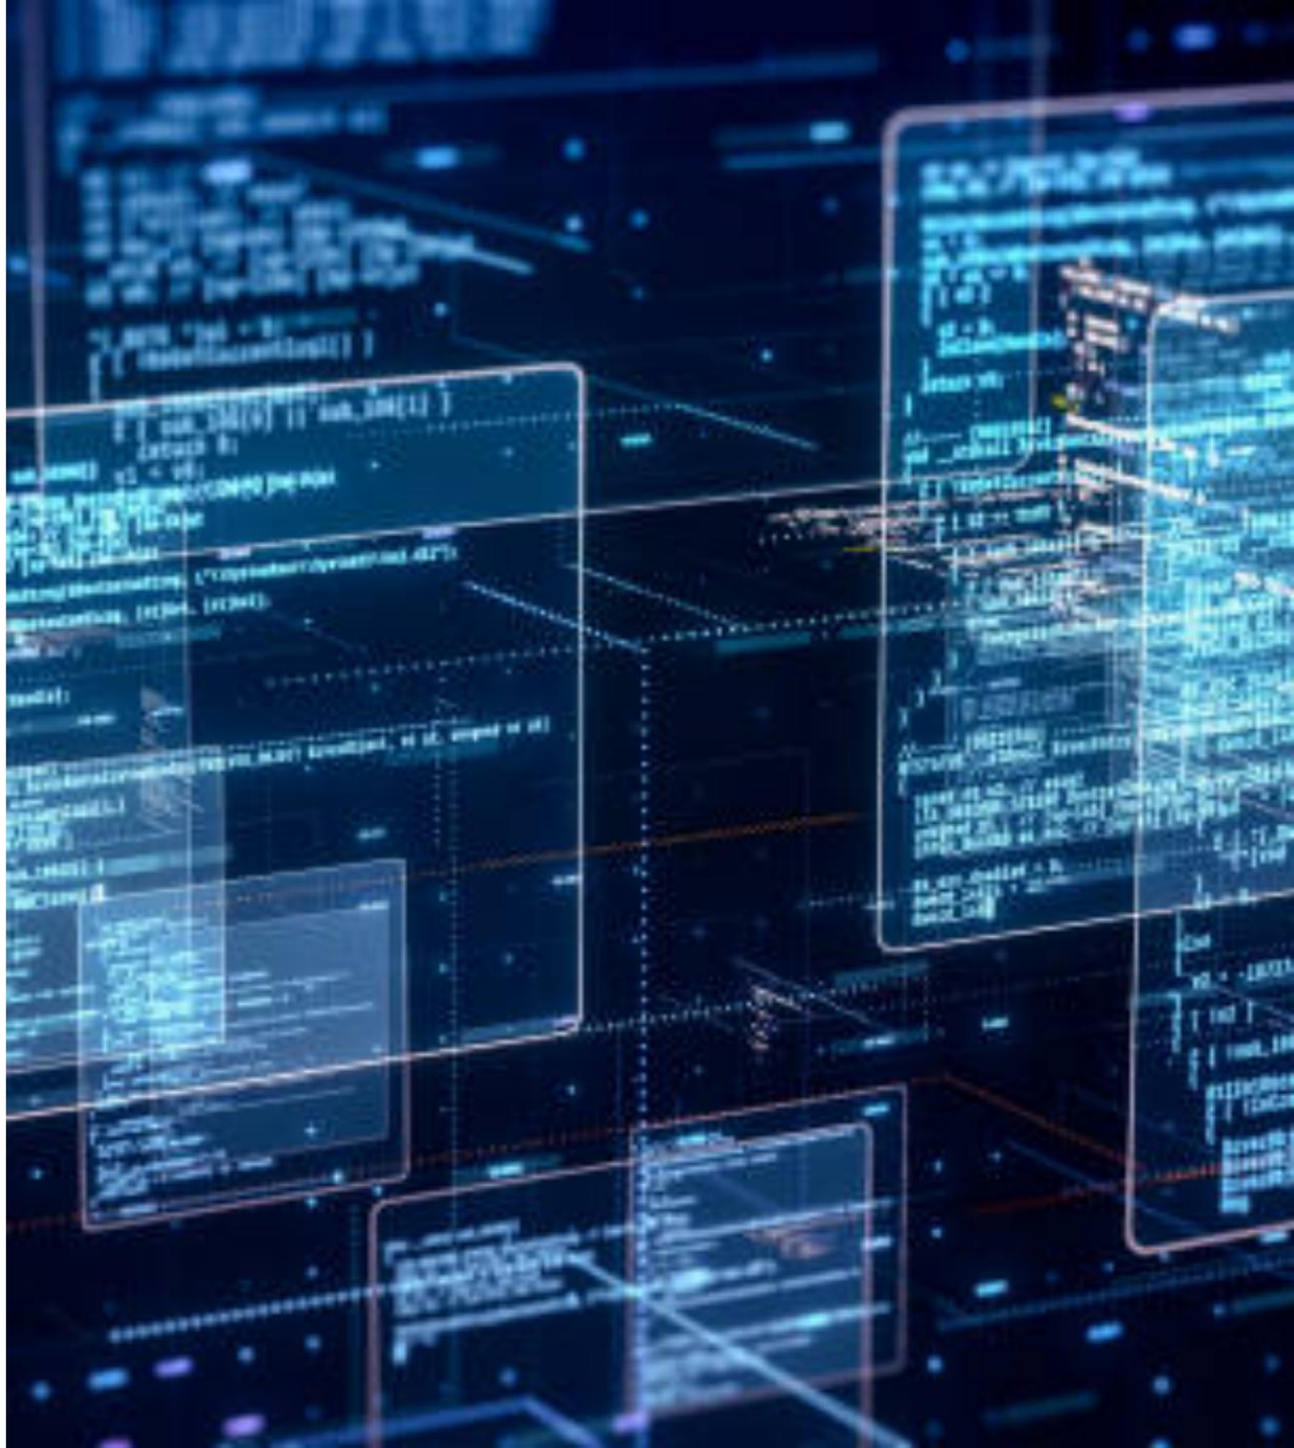

MARCH 2026 RELEASE

Java 26 Features

Native HTTP/3
Multiplexing and reduced latency.

Structured Concurrency
Cleaner multi-threaded application code.

G1 GC Efficiency
Higher throughput with lower synchronization.

Powering the Enterprise

Billions of devices. Infinite possibilities.
